Use sound waves to knock down building walls, crush humans and mutants! MUTATION PHASE is a horror-shooter with a first-person view, which narrates the consequences of experiments with sound waves. The situation got out of control. All the personnel of the research complex, as well as local residents, were subject to a strong change in the structure of DNA, as a consequence of which aggressive mutants filled the territory within a few kilometers. In the role of one of the engineers of the complex, who managed to keep his sanity and temporarily restrain the transformation of his body, you will have to cope with the disease and get out of the danger zone. The game offers over 30 weapons with unique functionality and their own set of upgrades. GZGameZone.net is a gamer website and source for the latest and greatest game related deals. (official trailer) ***Our new games ***The Zumbados The Zumbados, played by a team of 4 people, try to keep their ground as the Waves of Zombies push them back from their first building In SpaceShifter Studios we are more than professional game developers. You can find us on: ***Facebook: *** Twitter: ***Blog: ***More information: We are a game studio who focus on creating games that are based on a certain theme, like zombies games or horror games. We began our games making games about zombies and with the undead creatures which are lurking everywhere in the modern world. We have been playing together for nearly 20 years now and our experience of zombie games playbacks, zombie game ideas, we got the idea of what the zombie game is all about. Zombie game ideas: We came up with our first Zombie Game idea in 2000. We started with a basic concept about Zombies based on the Marvel character' "The Living Dead." We started making zombie games on our own, but we still start with a small part of that original idea. After a couple of years, we've founded a full 6 persons team and in 2004 we are now a game development studio. ness a two day self-supporting yoga retreat in rural Northern California, located next to the wooded hills of Big Sur. Perfect for your next wellness holiday in the beautiful natural surroundings with a friendly and open community of like-minded travelers. Accommodation For yoga and personal development on a self-sufficient retreat, you will be sharing 5 cushioned Twin rooms with attached bathroom. Each room has heating/cooling, WiFi and an iPad with Netflix or iTunes. *Disclosure: This is a yoga/yoga therapy retreat and in compensation for the food, accommodations, personal services and time of the services this retreat provides, I receive my fee. This allows me to bring workshops to you, provide you with classes, cooking and living skills, and support local farms and the natural world in which we live. For your support, I give you a tour of the facility and my beliefs and commitment in the future. Photos and the words expressed on this website and on my classes are independent of any compensation I receive. I will also be asking you questions about your practice at the retreat to support you and to further my mission for you. Also, there will be a time for open, unrestricted questions, and time for you and I to navigate our relationship. Looking ahead, I hope you will stay for a sharing meal shared with other travelers or people in the area in our next retreat. Price and Payment Our retreat takes place at 340 acres of land next to the mountains at the very edge of the Big Sur region. Good roads allow you to be independent. If you pick this retreat at the last minute (2 weeks before the retreat) I can most likely swing a small discount. You can choose to pay in full up front ($335/person for the retreat, is non-negotiable) or a deposit. The deposit is $25 for the first night of the retreat and $25 for the second night, so it is a small amount. If you send the deposit soon after your appointment is confirmed, you will receive that amount back as part of the security deposit. This is so that the property owner cannot use the security deposit for another service such as a vacation or pet belonging. I recommend you to pay the entire fee upfront to secure your spot. If you pay a deposit, it allows me time to put together your lodging, food and accommodation. I do not have to charge you more to rent two separate properties or require additional fees

Death Road to Canada is a Randomly Generated Road Trip Simulator. Control and manage a car full of jerks as they explore cities, recruit weird people, argue with each other, and face gigantic swarms of slow zombies. Death Road is built for replay value. Everything is randomized: locations, events, survivor appearances and personalities. There's a different story every time you play,

set in a world that doesn't take itself too seriously. Death Features: Up to 500 zombies can hunt you down at a time. Fight them, try to squirm past, or run. Use the character creator to put yourself, friends, and family in the game. Have them show up at random to get eaten! Find special and rare events, weapons, and characters with strange abilities. Make tough choices in Interactive Fiction events. Get different options and results based on the traits of your party members. Teach a dog how to drive a car. Throw chairs. Get your characters strong enough to throw large sofas. Most family friendly zombie apocalypse game on the market! Any gore explosion is in a cute style. We censor the word d*ngus once. Tell people to "Cool it." 4 player local same screen co-op where you control up to 4 characters! In this game, you can get 100% free coins in a fast way. In this game, you need to finish levels, and on each level, you need to collect coins to unlock new rooms. This game is very simple to play, just try to match three pieces and you will be happy. FREE Coins 2 (100% 100% FREE) In this game, the player runs and jumps over obstacles, collects coins and draws the wall tiles. Your time increases in the time of each level, and collect more coins and win the game. In this game, you need to help Mario collect all the coins. In each stage, Mario will receive a load of coins and need to jump to collect them. Collect all the coins to complete the stage, the less you have, the more points you will get. In this game, you have to help Penguins to collect eggs by passing through each platform. Each level has more and more egg collection points, and each egg has a different kind of egg, and also affects your character. Completion of the goal and the survival of the Penguin. Q: passing return value of one method to another doesn't work on the command line I have a method which should return an exclamation mark (!) if it succeeds to delete an object in a list. I want the return value of this method to be passed to another method which is intended to take the string (i.e. "!") as the input parameter. There seems to be no problem regarding the logic of the code, but when I run the script on command line using python, the following is the o/p I get
