* The Pen Tool is one of the most powerful tools in Photoshop. It works like a brush in that you can use both ends to click to mark out an area that you want to use. However, you can also use the Pen Tool to create objects such as lines, circles, curves, bezier curves, and ellipses. * The Eraser tool is used for deleting pixels. * The Text tool can be used to create numerous effects. The most basic ones are text effects such as dragging a text box to outline the text, and the text color can be changed. There are also a lot of advanced options, including font styles, text formats, justification, and alignment. The type of formatting applied can be changed for each individual element in a picture. Using the Type tool, a font can be added, removed, or selected from a library, a style can be assigned, and a font size can be adjusted. The color, size, and other options can be adjusted using the options palette.

Q: adding a map to the desktop I have several icons on the desktop, and one of them is a map. (guess where I am going now) However, although clicking on the map brings the map view up, I would like it to be added to the desktop. Is there any way to do this? Right now it won't let me add it to the desktop but it will let me move it. I am using Windows 7, with 3.11 ATI drivers if that helps. A: Open Compiz Config Settings Manager, go to Desktop and set Desktop Grid to check the box next to launcher. } [12](1973),pp. 741–762. F. Fidaleo, G.
