. download olx Movies TorrentIt's not easy being an American in Iraq. At least, if you're the type of person who gets cited for being in the wrong place at the wrong time. That's the grim fate that awaits three U.S. soldiers in Iraq right now. Two of them stand accused of being present at a roadside bombing that killed an Iraqi police officer and wounded a second policeman on Aug. 10. A third soldier, who said he was a medic but who may not have been one in fact, has been convicted of desertion and sentenced to five years in prison. He awaits trial before a military tribunal for allegedly giving a friend a .45-caliber pistol from his unit. If the three soldiers go on trial, any who are convicted of murder or manslaughter could face the death penalty. And that's if they're lucky. They could be sentenced to life in prison. We can't find out yet exactly what their fate will be. In any case, it's pretty clear that they are not, as the New York Times and other media are making it out, sacrificial lambs who were wrongly "convicted of the crime of being in the wrong place at the wrong time." According to the Times' absurd defense of the American soldiers, "everywhere else in Iraq, this kind of evidence has been enough to convict wrongdoers of murder and manslaughter." Leaving aside the fact that these killings occurred in the wrong place (allegedly so), but also that the two policemen are a) dead and b) in the wrong place, the whole point of this column is to tell you why the soldiers haven't been murdered by the time the story is read. In other words, it's not that the Americans haven't done it before. It's not that they're not hated here. It's not that they haven't been targeted by rioters on several occasions. It's because there are actually lots of reasons why the American military is still relatively safe in Iraq. First, the country is still reeling from the deep and destructive war launched by George W. Bush and his disciples. The American political leadership has scrupulously avoided anything resembling the kind of "divine mission" attitude that so casually led to the wrong man's killing. It is highly unlikely that the blood of U.S. troops is currently spilled on the orders of Washington. In fact, the Times says that none of the soldiers "reportedly" said the words "Kill him 6d1f23a050
